

Travel Should Be An Amazing Adventure.

Travel insurance can protect you before and during your well-earned adventure. The best insurers provide emergency medical and dental benefits, medical transportation, trip & luggage protection, as well as cancellation and interruption coverage.

We highly recommend a consultation with us before you actually book your trip and you can be prepared to include insurance cost into your travel budget. It is wise for many travelers to start their travel insurance policy at the time of your initial deposit. While it may seem odd to insure an overall small amount, by beginning your policy early on, you will be covered for cancellation throughout the booking procedure as well while on your trip, and you can rest assured knowing any possible pre-existing conditions are covered. Even better, it won't cost any additional to have coverage early.

There are many insurance companies and each of them provide varying amounts of coverage. We are proud to represent Allianz and Travelex Insurance companies for your travel needs. Travel Confidently and protect your investment and your trip.
