

Travel Should Be An Amazing Adventure.

Travel confidently. Did you know that most medicare plans do not provide primary medical insurance when you are overseas? Travel Insurance can protect you before, during, and after your vacation. The best insurers provide emergency medical and dental benefits, medical transportation, trip & luggage protection, and 24 hour concierge services.

We recommend a consultation with us before you actually book your trip to review the ever-changing insurance regulations.

Many travelers are interested in what is referred to as "Cancel for Any Reason" ("CAR") insurance. This type of travel protection must be purchased the same date as your initial trip deposit. We will work with you and WAI to make sure you are fully insured every step of the way. CAR coverage is typically limited to approximately 80% of your trip cost.

We continue to offer group insurance for WAI travelers through Travelex Insurance Services. This is not a cancel for any reason plan, however it does cover you for pre-existing conditions as long as you pay for the insurance before your final payment to WAI. If you need to cancel your trip for a covered reason, it does reimburse up to 100% of your non-refundable trip cost.

There are plenty of ins and outs with travel insurance. Please call us today for a no-obligation price quote and review of possible options.
